Professional Summary

Full Stack Web Developer with hands-on experience in building scalable web applications using the MERN Stack, PHP, MySQL, and modern frontend technologies. Skilled in developing responsive user interfaces, REST APIs, authentication systems, cloud deployment, and AI-powered solutions. Completed professional internships and freelance projects while delivering real-world applications including e-commerce platforms, cloud-based IDEs, AI website builders, and management systems. Passionate about problem-solving, clean code practices, and continuously learning new technologies.

Technical Skills

Languages: JavaScript, C++, C, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.io, PHP

Databases: MongoDB, MySQL, IndexedDB

AI & APIs: Clerk API, Gemini API, OpenRouter API, Glot.io API

Tools & Platforms: Git, GitHub, Postman, Docker, Vercel, Render, Cloudinary, Clerk Auth, CashFree, EmailJS, Nodemailer

Experience

PHP Full Stack Developer Intern — UMID Infotech

Dec 2024 – Mar 2025

- Worked on live client projects using PHP, MySQL, HTML, CSS, and JavaScript.
- Developed and maintained full-stack web applications under professional supervision.
- Integrated APIs and third-party services into existing applications.
- Debugged, optimized, and improved application performance and scalability.
- Participated in code reviews and followed industry-standard development practices.

Freelance Web Developer

2026 – Present

Kota Refrigeration

- Developed and deployed a fully responsive business website.
- Integrated EmailJS for customer inquiries and contact functionality.
- Optimized website performance and mobile responsiveness.

Bhargava Coaching

- Designed and developed a responsive coaching institute website.
- Improved online presence and course information accessibility.
- Built mobile-friendly user interfaces with modern design practices.

Projects

Multi-Code IDE — [Live](#) — [GitHub](#)

2026

React, Node.js, Express, MongoDB, Clerk Auth, Monaco Editor, Glot API

- Built a cloud-based IDE supporting multiple programming languages with real-time code execution.
- Integrated Monaco Editor for a VS Code-like coding experience and Clerk for secure authentication.
- Developed backend APIs for project management and code execution.

Ganesh Art Jewellery (Full-Stack E-Commerce Platform) — [Live](#) — [GitHub](#)

2026

React, Node.js, Express.js, MongoDB, JWT, Cashfree, Tailwind CSS, Cloudinary, Socket.io

- Developed a production-ready e-commerce platform with user authentication, product browsing, order management, and secure checkout functionality.
- Integrated Cashfree payment gateway and implemented a complete shopping workflow from product discovery to order placement.
- Built an admin dashboard for managing products, categories, users, orders, and platform operations.

College Library Management System — [GitHub](#)

2025

PHP, MySQL, Bootstrap, JavaScript

- Developed a digital library management system for managing books and student records.
- Implemented issue and return book functionality with database management.
- Created an admin dashboard for monitoring library activities.
- Designed responsive interfaces for students and administrators.

StayFinder – Hotel & Property Booking Platform — [GitHub](#)

2025

MERN Stack, MongoDB, Express.js, React.js, Node.js

- Developed a property discovery and accommodation booking platform.
- Implemented authentication and property listing management features.
- Created advanced search and filtering functionality.
- Designed a responsive and user-friendly booking experience.

Education

Bachelor of Computer Applications (BCA)

2023 – 2026

Makhanlal Chaturvedi National University of Journalism and Communication

Current CGPA: 8.2/10

Certifications & Achievements

- **PHP Full Stack Developer Internship Certificate** - UMID Infotech (March 2025) — [Certificate](#)
- Successfully delivered multiple freelance client projects for business clients.
- Built and deployed 20+ Full Stack, AI-powered, and Business Applications.
- Developed real-world MERN Stack, PHP, and AI-powered projects with cloud deployment.
- Active GitHub Project Maintainer with multiple public repositories and open-source projects.
